Linux OS

SUMMARY

Results-driven Software Engineer with 4 years of experience in Teamcenter development and customization, specializing in PLM solutions, server-side development, and Rich Client customization. Proficient in Java, C, and C++ with expertise in ITK, RAC, BMIDE, workflows, and Teamcenter administration. Experienced in application development, debugging, deployment, and production support across enterprise environments. Strong problem-solving abilities with a proven track record of delivering efficient, scalable, and maintainable software solutions.

EDUCATION

B. TECH Mechanical Engineering

2017 - 2021

B K Birla Institute of Engineering & Technology, Pilani

Pilani Rajasthan

GPA | 71 / 100

Senior Secondary

2016 - 2017

UPMSP

Hardoī, India

GPA | 77.2 / 100

EXPERIENCE

Senior Developer

10/2025 - Present

HCLTech Ltd

Noida, India

- Working on enterprise application development and testing activities for industrial software solutions.
- Performing unit testing and validating application workflows to ensure software reliability.
- Collaborating with development teams to implement business requirements and improve application functionality.
- Participating in debugging and issue resolution activities for production-level applications.

Solution Developer

07/2023 - 10/2025

Tata Technologies Ltd

Pune, India

- Developed enterprise backend modules using Java, C++, and Teamcenter ITK for large-scale PLM applications.
- Built and customized rich client UI components using Java Swing, SWT, and AWT.
- Developed and maintained server-side business logic for client-specific requirements.
- Performed code debugging, testing, and validation to improve software performance and stability.
- Worked on BMIDE code-full and code-less customization for enterprise workflow solutions.
- Collaborated with cross-functional teams in Agile development environments.
- Contributed to unit testing and deployment support activities.

EXPERIENCE

Software Engineer

03/2022 - 06/2023

Intelizign Lifecycle Services Pvt Ltd

Pune, India

- Worked on backend customization and application enhancement using C++, Java, and Teamcenter ITK.
- Implemented business logic enhancements and supported enterprise software customization activities.
- Performed code analysis, testing, and debugging for client requirements.
- Worked on BMIDE customization and deployment support.
- Assisted in maintaining application stability and resolving technical issues.
